Some of the **greatest** discoveries in science were made by ***accident***.

In case you didn't catch that,

Some of the greatest *discoveries* in science were made by accident.

The universe is immense and it seems to be homogeneous, in a large scale, everywhere we look.

There's a picture of the moon above

Figure 1: a nice plot

As you can see in the figure 1, the function grows near 0. Also, in the page 4 is the same example.
